

**Date:**Thurs, 11<sup>th</sup> September 2025**Time:**

5:30pm – 7:30pm

**Location:**The Bradfield Centre,  
Cambridge Science Park, CB**Cost:**

Free

**PDU:**Attendance at the event counts as  
1 PDU (1x Ways of Working) towards  
your PMP certification.Please book as soon as possible and  
at least 1 week before the event via  
our website at <https://www.pmi.org.uk>

# The Rise of Agentic AI: Shaping the Future

**with Steve Butler** (MBA, MBCS, CITP, PFMP)In addition to the presentation there will also be an opportunity  
for networking.**Schedule:**

5:30-6:00pm Registration, refreshments and networking

6:00-7:00pm Introduction, presentation and Q&amp;A

7:30pm Close

We encourage you to attend these events to take advantage  
of the opportunity to network with your colleagues and learn  
more about this growing profession.

## STEVE BUTLER AI Assisted Consultant.

We're delighted to welcome Steve Butler, founder of Luminary AI and co-founder of Quidita, to our PMI UK Cambridgeshire Branch event. With a background straddling both cutting-edge AI development and strategic business execution, Steve brings a rare perspective on how emerging technologies are reshaping the way decisions, projects, and even organisations function. His work focuses on the design and deployment of *agentic AI*—systems capable of reasoning, learning, and acting autonomously—and he's been at the forefront of designing cutting edge solutions that safely harness this intelligence for measurable impact.

In this thought-provoking session, Steve will cut through the hype to explore where AI truly stands today, what's driving the rise of agentic systems, and how these changes affect project managers, PMOs, and entire delivery functions – and touching on data science implications. Drawing on real-world applications and current capabilities, he will offer a compelling view into how agentic AI is already shaping workflows, accelerating decision-making, and challenging traditional models of governance and execution. For project professionals, this isn't just a technology trend—it's a strategic inflection point.

As AI moves from predictive analytics to autonomous orchestration, project and data leaders face both opportunity and upheaval. Steve will provide a roadmap for navigating this shift, highlighting where project professionals can lead rather than react. Expect insight, challenge, and a glimpse into what it really means to manage *with* AI, not just *alongside* it.

## GETTING THERE

**Address:**

The Bradfield Centre, 184 Cambridge Science Park, Milton Road, Cambridge, CB4 0GA

**Travel options:** See page 2.

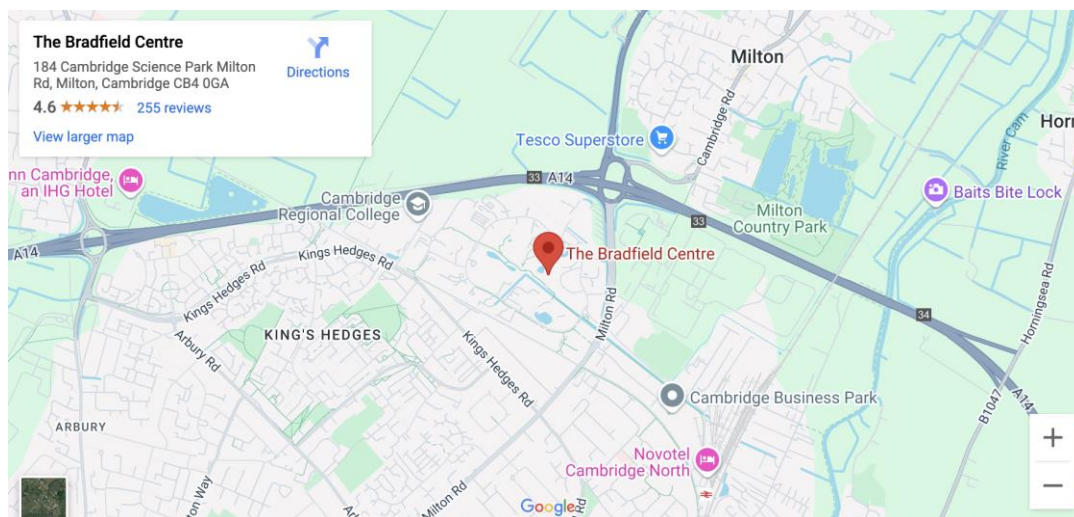

**This event is hosted by The Bradfield Centre  
and organised by PMI UK**

By car/taxi - From the Milton Road entrance to the Cambridge Science Park, turn right at the roundabout as you enter the park; take the second road on the left and the Bradfield Centre is on your right. Visitor parking spaces are available, on a first-come, first-serve basis.

By train - Cambridge is served by two train stations. [Cambridge](#) (station code CBG), which is 20-25 minutes by car, and the closer [Cambridge North](#) (station code CMB) which is 5 minutes by car, 10 mins by bike, or a 15 minute walk.

By bus - From Cambridge Train Station take the Busway Route A from Station Road (Stop 9) and alight at the Busway Science Park. This journey will take approximately 24 minutes and is 3 stops. From Cambridge North Station, take Busway B.

By Bike - There are 288 covered bicycle racks at The Bradfield Centre and shower facilities are available for members.
